

Direct Flow Reverse
Osmosis Water Filtration System

ATI-A9-600RO

This reverse osmosis (R.O.) system delivers unlimited amount of safe, clean, and delicious water right at your sink, every single time.

R.O. treated water is free from chlorine, heavy metals, other dissolved solids and ions, bacteria, viruses and even microplastics.

Filtration in real time results in fresh water that is instantly available with uncompromising water flow.

Never wait for a tank refill.

No more stale water from a tank.

Multi-layer composite filtration

Integrated filter design
High purity filtration softened water

Limited water waste

1.5 : 1 drain rate
Limited water waste
34% more efficient

Easy to install

30 minutes installation
3 seconds to replace filter (twist & click design)

Tankless design

Compact system saves space under your sink
Attractive design complements modern kitchens

High water flow rate

Constant and efficient water supply
600 GPD (gallons per day)

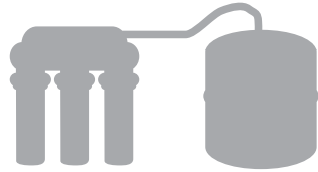

3 filtering modes in 2 filters

Easy and cost effective filter replcaement
Softening resin, Activated carbon filter, PP filter

AQUATECH RO SYSTEM

TRADITIONAL RO SYSTEM

Tankless Design

More space under your sink

Traditional Design

Bulky, takes up a lot of space

High Water Flow Rate

600 GPD (Gallons per day)

Low Water Flow Rate

50 GPD (Gallons per day)

Fast Filtering

Consistent pure water production, fast flow

Slow Filtering

Less than 3 minutes of continuous flow

1.5:1 Drain Rate

High efficiency, limited waste

1:3 Drain Rate

Low efficiency, waste water

Easy to Install

Install and set up less than 30 minutes

Difficult Installation

Requires professional expertise, takes hours to setup

Easy Change Filter System

Easily replace filters in just 3 seconds

Complicated Filter Replacement Process

30 minutes or more to replace

Product Parameters

Product Model :	ATI-A9-600RO
Filtration Efficiency :	0.0001um
Flow Rate :	1.6L/min
Working Pressure :	0.1-0.4Mpa
Power Supply :	100-240V AC
Dimension(mm) :	435Dx160Wx400H
Product Wt :	8Kg
Recovery Rate :	1.5 : 1 (60%)
CBPA Filter Life :	9-12 months
RO Filter Life :	18-24 months
Inlet Water Quality :	Municipal tap water or similar water quality
